Dr.Coffee F2 Plus

The Dr Coffee F2 Plus is small in size but packs a punch of flavor. Featuring innovative fresh brewing technology, these stylish compact machines deliver high-quality, rich-tasting coffee that rivals traditional bar machines found in coffee shops. Perfect for large offices, as well as meeting rooms, these machines are a stylish addition to any workspace.

Carimali Armonia Soft Plus

Carimali Armonia Soft Plus is defined by a 7 inch touch screen display, completely customisation depending on the user demands. Up to 30 drink selection can be loaded (max.10 per page), like coffee drinks, milk-based drinks, instant products and hot water.

Franke A600

Elevate your office coffee experience with the sleek and contemporary Franke A600 Bean To Cup Coffee Machine. Engineered with Swiss precision, this automatic coffee machine is the perfect addition to your office space.

Beans!

FRESHLY ROASTED IN SYDNEY.

A blend of Brazilian and Costa Rican origins, combining Arabica beans and an aromatic Robusta bean for a sweet, intense and creamy pure coffee flavour.

Full, rich body and floral aroma with prominent citrus flavours as an espresso, meanwhile offering a strong kick to cut through the milk-based beverage.

This coffee comes from the speciality coffee area in Northern Peru and is grown under a canopy of shade.

Soft acidity with a rich, thick taste and unforgettable cocoa aftertaste. Very gentle, subtle flavour and perfect for any coffee making.

Leggera 100% Arabica specifically designed to be smooth with a light roasted espresso blend and soft lavender aroma. Furthermore, it features notes of caramel meringue and dark berries, perfect for your espresso.

The blend has impressed the industry's top coffee connoisseurs and local punters alike.

This blend of Arabica and Robusta represent the signature flavour of many cafés around Australia with notes of cocoa, caramelised cherry, and brown spice; and featuring a lovely smooth mouthful.

Its lingering richness conveys these flavours fully as both espresso and long black, and when paired with milk, it delivers a sweet, velvety-textured cocoa and hazelnut flavour profile.

Our perfectly dark roasted hand-selected arabica beans create an amazing flavour of dark cocoa followed by buttery caramel almond notes rich syrupy body finished with a hint of cherry bean floral.
